PROFESSIONAL SUMMARY

I'm a final-year IT Engineering student with a Diploma background and some hands-on experience from web development internships. I mainly work with Python, Java, Django, HTML5, CSS3, and JavaScript, and I've picked up a decent understanding of databases and networking along the way. One of my bigger projects was an ERP-style campus management system that I built and got working end-to-end. I like solving problems, learn new tools fairly quickly, and work well with a team — currently looking for an entry-level role as a Software Developer, Python Developer, Web Developer, or in IT Support.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Web: HTML5, CSS3, Django, Responsive Web Design

Database: Database Management (SQL fundamentals)

Concepts: Networking, Debugging & Testing, Software Development Lifecycle

Tools: MS Office, Git/GitHub

PROJECTS

Smart Campus ERP — *Web Application, Database Design*

- Built a full-stack ERP-style app to help manage everyday campus activities and records.
- Designed the database schema myself and connected it to a web front end so data could be handled smoothly.

Online Sports Registration System — *Web Application, Form Handling*

- Built an easy-to-use online portal where students could register for sports events.
- Set up the data storage so organizers could manage participants without extra hassle.

INTERNSHIP EXPERIENCE

Web Development Intern — Patel Web Solutions (*Sep 2022 – Oct 2022*)

- Worked on responsive web pages using HTML, CSS, and JavaScript for real client projects.
- Worked alongside the dev team and got a feel for how coding actually happens in a real workflow.

Software Development Intern — VP ITLab (*45-Day Program*)

- Helped out with software and web development tasks as part of the engineering team.
- Did a fair amount of debugging and testing, which helped sharpen my core programming skills.

EDUCATION

B.Tech, Information Technology (*2024 – 2027, Final Year, In Progress*)

Diploma in Information Technology — Government Polytechnic, Gandhinagar (*2021 – 2024*) | CGPA: 6.98 / 10

Secondary School Education (SSC) — 2021

CERTIFICATIONS & COURSES

Web Development — Certified Course | Python Programming — Certified Course

KEY STRENGTHS

Technical Proficiency • Logical Thinking • Problem Solving • Quick Learner • Team Collaboration • Communication Skills • Time Management
